DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Pontoglio US 4,381,392.

Regarding claim 1, Pontoglio discloses a method for removing contaminants from rubber comprising treating with an organic solvent, wherein the solvent is ethanol (see abstract and summary of invention).

Pontoglio fails to disclose a pump gasket.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use a pump gasket in the method of Pontoglio because Pontoglio discloses spraying into solvent (Example 1), which would at least suggest a pump gasket to one of ordinary skill in order to accomplish the prior art spraying.

Regarding claim 3, Pontoglio discloses 25 degrees, less than 100 degrees, and about 80 degrees (see Examples and column 2, lines 31-40).

Regarding claim 4, Pontoglio discloses 2 hours (Example 1).

Regarding claims 5-6, Pontoglio discloses carbon tetrachloride (see abstract and summary of invention).

Regarding claim 8, Pontoglio discloses a continuous flow of ethanol (Example 1).

Regarding claim 2, Pontoglio discloses ethanol passing through the rubber, which would at least suggest flowing through a column to an ordinarily skilled artisan.

Regarding claim 9, Pontoglio discloses rubber, which would at least suggest a rubber gasket to an ordinarily skilled artisan at the time the invention was made.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS

Art Unit: 1793

of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
